

FCC Commisioners

Sinclair Broadcasting - the decision by Sinclair to use the media to tell lies about a candidate in order to help keep their minion in power is illegal and immoral. I shall do all in my power to not only stop them from doing this, but also to remove their media capability. You - the FCC- are not now and have not been during this present administration - a responsible organization and you are not what we need for America. You allow multinationals and corporations to control the media the same way they control the congress and the white house.

You are obligated by law to serve the public interest. You are only serving your interests, which are Sinclair's and Bush's interests. Our group is dedicated to cleaning the corruption from America and making the slogan Truth, Justice and the American Way mean something besides corporate and multinational imperialism. We want a commission that serves the people, not the money.
